Representative Meeting Decides Ask Congress to Withdraw the Trade Bollar.

The meeting was called to order by Vica-resident J. Jacobs, who caused the follow-

Chamber of Commerce, of New York, and addressed to the president of the Memphis Cotton Exchange:

New York, July 10, 1883.

DEAR SIN—The Backing Committee of this Chamber have been requested to take some action in relation to the circulation of the trade dollar, which is condemned as an armoyance to commercial men, bankers and the public generally. An effort will be made to induce Congress immediately upon its next resembling to pass a bill to withdraw this coin from circulation, and in the mean while, notil such withdrawal, for the adoption of such measures as to abate the annoyance complained of Y or will favor the committee by informing them whether they may extend to cooler the measures as to abate the annoyance complained of Y or will favor the committee by informing them whether they may extend to cooler the made and it is face value or else be once again declared a legal tender the government made itself morally responsible for it. Common honesty demands that it be either redeemed at its face value or else be once again declared a legal tender the government made itself morally responsible for it. Common honesty demands that it be either redeemed at its face value or else be once again declared a legal tender the government made itself morally responsible for it. Common honesty demands that it be either redeemed at its face value or else be once again declared a legal tender the government made itself morally responsible for it. Common honesty demands that it be either redeemed at its face value or else be once again declared a legal tender the government made itself morally responsible for it. Common honesty demands that it be either to defer the government made itself morally responsible for it. Common honesty demands that it be either to defer the government made itself morally responsible for it. Common honesty demands that it be either to defer the government made itself morally responsible for it. Common honesty demands that it be either to demand the for debta?

On motion of Mr. Maurice Maas, of t tee by informing them whether they may expect to have the beorist of your influence and assistance in this effort for the public good. Will you join in a memorial to Cogress to pressuch a measure for the withdrawal of

the coin? What other stees would you pro-pose to the committee? Your early reply will greatly oblige. Yours, respectfully, CHA*LES A. PEARSON, Secretary. An extract was also read from the New

the Editor of the Journal of Commer "Suppose an individual counterfeited the dollar of the United States, marked it sa finer than the United States dollar, exported it to confederates abroad, and they re-turned it. Have the United States a right to triff-with the imag and superscription of the current coin and than refuse their own coinage, stamped United States of America, trade oilar, one dollar, and the figure of Liberty on the reverse? They seewate the dollar and then Congress tramples on it, and by so doing robs the sommunity and sets the country a very questionable example of honessy. I hope it will be legal tender after next session. You take a different view

rom vours traly, c. H. T.
"REPLY.—We vave seen in other quarters a still stronger statement setting forth that the trade dollar was never in any proper sense a coin of the United States.' All this is a mistake. What we said was that the trade dollar was not designed for circulation in this country. It is as much a coin of the United States as the half dollar, but as no silver dollar was then struck at our mints, was designed solely for use in China, and was

coined to accommodate the merchanis in that trade. It was clossed in the Revised Statutes with subsidiary silver coin, and coming nu-Wednesday Night Excursion der the same provision was thereby made a legal-tender only to the extent of \$5. It was ing for rain. Their crops are parched and made purposely heavy that it might not get made purposely heavy that it might not get into circulation here, and was worth intrin-sically about 102} in gold. When eliver declined, and there was danger that the coin might be sent back here from the E sa, a special act was passed July 22, 1876, making it no longer a legal tender, but allowing the Sicretary of the Treasury to continue the coinage so far as there might be a demand for export. If this had been liter-

ally followed no harm would have come out, as there were not trade dollars amough it he country to have given any trouble. But he mint went on coining, 9,162,900 having been struck in the year following the repeal of its legal-tender character, and 11,378,000 in the year succeeding. It is believe i that a portion of the last item were coined for sp cplators who set them iffort in this conneras only about 13,000,000 of the 20,000,000

it, the quotation for it is an important item higher than the value of the standard dollar August, 1873, under the provisions of the coinage act of February 12 h of that year.

This act was made to include among the si-ver coins a 'trade dollar,' which was to weigh coins provided for were declared 'a legal ten-der at their nominal value for any amount bullion might deposit it at any mint, to be formed into trade dollars, and the charge for

the government, by stamping its title upon the coin and declaring it a legal tender, mideliself responsible for it the same was for any other coin. As the time it was issued, however, it was worth in the market \$1.02 is 13-100, and, of sourse, it did not circulate here, being used in the Coina trade. By the year 1876, however, silver-had depreciated in year 1876, however, silver-had depreciated in once than the same week of 1881. The year 1876 for proces in 1876 77), so that, as Service (the average prior decreasing from 60-5-16 priors in 1876 77), so that, as Service in the facility below \$1 in gold. It seems that this was the reason why section 2 off the act of July 221, 1876, was made to provide that the greative below \$1 in gold. It seems that this was the reason why section 2 off the act of July 221, 1876, was made to provide that the greative below \$1 in gold. It seems that this was the reason why section 2 off the act of July 221, 1876, was made to provide that the first and dollar should not therefore be a legal tender, and to authorize the Secretary seems, finding that silver owners were offering bullion to be coined into trade dollars in use in the issue to the export demand for the coin. In October, 1877, Secretary Sherman, finding that silver owners were offering bullion to be coined into trade dollars for use in the form of the coins issued up to April, 1878, was \$3,959.360.

how sood the people tired of it is well known.

"That the section of Congress in stamping the dollar of 412½ grains as legal was a grave mistake is unquestionable. The bill, as passed in 1878, provided for the coining of from \$2,000,000 to \$4,000,000 of 412½ grains each monthly, the production of the smaller amount being compulsory in any event. President thay so vetoed the measure, but it was passed over his vete, notwithstanting the fact that the eilver dollar of the weight mentioned was at a discount of from eight to ten per cent. The experience of five years has fully justified the original opposition to the bill. Down to November 1, 1882, \$128,000,000 of the standard dollar had been coined, and yet, nearly \$93,000,000 rebeen coined, and yet, nearly \$33,000,000 remained in the Treasury—a sufficient proof that these dollars are not wanted. Merchants contend rightly that, as the various European Use the Mis-issippi Diarrhea Cordial. It

GREAT

JEFFERSONVILLE, Twiggs Co., Ga.

Five years ago I found on my plantation a colored man who was badly diseased. He stated that five years before he had contracted a violent case of Blood Poison, and had been treated by many physicians, all failing to cure him. I treated him with Swift's Specific, and in a short time he was sound and well, and has not had a symptom of the disease alone.

One gentleman who had been confined to his bed six weeks with Mercurial Rheumatism has been cured entirely, and apears in the highest praise of S. S. S. CHILES & BERRY, Chattaboogs, Tenn.

Will be paid to any Chemist who will find, on Analysis of 100 bottles S. S. S., one par-ticle of Mercury, Iodide Potassium, or any

THE SWIFT SPECIFIC CO. .

Price—Small size, \$1 per bottle. Large size (holding double quantity), \$1 75 per bottle. All druggists sell it.
